 - o Incorporate current HES PTA involvement in this meeting
- Swing Space
 - o HES PTA has checked in with Dr. McKee to see what the vision is for occupation of swing space.
 - o Principal will take the lead on stakeholder committee for design.
 - o HES PTA asked about a tour of the St. Mark's facility – school community is worried about access to the campus and how "open" it is to a very busy road.
 - o Jason Washington may be able to set up this tour – Dan will check about this
 - o HES community is anticipating lots of questions about transportation – if we can gather more information about this (pickup locations, etc), that will be very helpful to allay some fears.
